A Word to the Wise

⌘ Heartfelt Dedicate

A Word to the Wise

from the God/US

in US All

To A¹ world yet in slumber

⌘ whisper A breathless call

Here ME

In A silence so loud it cannot be heard

⌘ caress you from **THAT**² timeless space

Touching A place

THAT cannot be felt

⌘ in-vision Now through endless portals

A way of life

THAT cannot be seen except through the naked ⌘

⌘ savor Being

An exquisite taste

THAT is palatable to A boundless few

in no scent ⌘ detect an aroma

innocent with A sense of awe

Struck and in wonder of time less space

while keeping its pace **Golden Means**

to Be-loved **Now**

¹ Capital A in this and all upper cases **Golden Means** it relates to Alchemy for the One Who can understand in relation to the nature of any AlcheMystical Experience.

Golden Means A symbol OF Sacred Geometry.

Sacred Geometry is the language of the Universe;
accessing the language resonates God/US.

² Here **THAT** is all ways in reference to A vibration of A **Golden** nature within US All,
and in reverence to the unspeakable **Golden Meaning** for 'The Word'

THAT Christ spoke of in the statement

I Am **THAT** ⌘ AM... spoken in A state meant as Our **Golden Means** of communion.

Hence forth ⌘ AM writing **THAT** as **THAT** for distinction

and/or dimension.

⌘ as A 3rd eye; AM is an acronym for AlcheMystic...and reverse

dna is A ⇌

and... A clue.

AlcheMystical Golden Means

The more cryptic the Alchemical writing
The more direction and Sacred Secrets
ore Key key dna or Clue ♀
'IS Being' revealed
THAT Golden Means
It's all about
✦✦ Alchemy ✦✦

AlcheMystical Golden Means

Existence IS A privilege
The rest IS up to me

Me

ME²²

²² With-in all my AlcheMystic Books, the ME is an acronym for Mind/Ego or Mother Earth, However, in small cases as me, is mini/ego at its basic personal nature. Of course, ME and me together thrive together as Mind/ego t2o flourish on Mother Earth. Me can also be A proverbial fractal... to gather as A hologram reflection of Mass + Energy. Example: Each One of US can relate to is A Human Body.

CRIMSON

Who are you? **SON** of God?

or God/US maybe...

Why haven't I noticed you before?

As you are... quite **prevalent**

or A factor of course just **relevant**

for exposing A **Golden Means** **valiant** in ME...

Your colour vibrant in A **scent**

as I **sense** ecstasy **inhaling** me

Even the sound of your name takes me **In...** and makes Me

hail you more

Your beauty-full of promise

Intimately!

Your taste... fully palatably and exciting

Your sense of life I can barely imagine... until Now

With **THAT** openness of *Truth*... I re-member thee

Crimson! The making of Love ♥ I embrace thee.

23

²³ As I put lead to paper the memory of my Being drenched in **Crimson** while in the arms of my BeLoved took hold. After I **read** the words, I put **Crimson** in Yahoo search engine for an image

to imagine the colour I'd experienced. This is the first image and it says it all.

How Apropos! Considering my constant reference through my life to Psyche and Eros. An example for how all communion with One Self is A true language of L♥VE.

Language **THAT** stimulates all the senses for One to communicate in multiple dimensions.

Obviously, this wasn't just any ordinary dream, It was laden with unconscious clues, nuances and keys **THAT** implies A *Truth* of what Love is,

and what Love isn't.

Vigilantly, years later, as I prepare to give the image credit in this book, I had to go through....

....thousands of images to find it. How it showed up first on **THAT** day is AlcheMystical.

Eventually I found it on the site <https://world-top-best-hd-wallpapers.blogspot.com>

Title - Rose Matter
Medium - French dyes on silk

*why are some roses **RED** ?*

Tenderly
I watch the blush of its bloom
Showing me its untold secrets
Once concealed by its *Truth*
In route till NOW
A painstaking passage
Through self-imposed thorns
Stemming from long standing
Ovations
Put in place by its protective father
and cautious mother...
I dare not pluck it
Least I incur the unspoken consequence
Crying
A warning through the blood... Like
Red colour
our memories bleeding
From the heart
at the hand
Of those trying to reach
trying to touch
trying to hold
trying to possess
Even for A moment
The blush of its bloom...

A Word to the Wise

ISIS

Everything **IS** complete within itself
it **IS** whole
and all **THAT IS**
Its completion **IS** part of something
complete and **IS** whole within it Self
and all **THAT IS**
Something **IS** part of anything
yet **IS** whole within itself
it's all **THAT IS**
We find anything **IS** in everything
THAT IS complete within itself
it **IS** whole
and all **THAT IS**
Yet within everything **IS** nothing complete and whole
and **THAT IS IS**
GENISIS⁵²

⁵² The poem came to me on the onset of **GenIsis² Opal Essence Energy Initiation**.
It also holds A key to an Immaculate Concept ION Essence
for 5th dimension CreatION as you will soon see.

Mentor Ring

I have noticeꝛd you from afar
Yet I feel you ever near to ME
So gentle A Being are you...
Your hand
and heart reach for me

Oh! my sweet heart... you doth hear the call
Echoing through A timeless space
The fulfillment of my longing for the touch of A Master

AlcheMystical Golden Means

All One

There is enough Love for all in you
just step aside and let it through
Giving it away is not your task
letting it flow over is all I ask
Your Love shall NOW shine
so as to reveal the sublime
Focus NOW on simplicity
in matters of style and
ways of serendipity
Now you can know
an effortless way

About the Author

As a clairvoyant and AlchemyMystic artist, writer and empathic facilitator of the Art of Well Being for over forty years; an Art she calls **Genlsis²; (Genz of Isis power of 2)**

Terra has developed an ability to look into Akashic records and expand the magnetic field for the Soul purpose of Ascension. After a spontaneous initiation and awakening in 1987, where she experienced her Self... One with everything, she left the corporate world and began her journey of Self Discovery. A journey **THAT** has taken her all over the world; from the Great Cathedrals of Europe, to the Kivas of the Great Southwestern Plains, from the Spirit of India to the essence of Bali, from mosques, churches, temples and shrines of numerous beliefs like Batu Cave in Kuala Lumpur, and Mystical sites like Damanhur in Italy or Stonehenge in England; where past and future meet **HERE NOW**.

In her search for *Truth*, she has found a unique Oneness. Though each encounter has honed her innate AlchemyMystica abilities, her greatest teacher she found within. A calm, subtle, inner voice has patiently taught and guided her through all odds

and odysseys to **THAT** reality Beyond.....

.....**THAT** Being the same 'I AM **THAT** I AM' Christ speaks of.

In 1994, after healing from cancer and later a stroke, she had a mystical magical encounter with a Balinese Healer, who heightened her professional accuracy. This meeting was foretold to her one morning in meditation by her inner guidance nine months earlier. Within the year, after the prophesized death of the Balian, she developed the Genlsis² energy as a way to align the Initiate, The AlchemyMystic, the Star Child, the Avatar as the Christ/Christa within, to re-member y**Our** own, and/or One's unique Genetic DNA coding.

Her AlchemyMystic books are written in an Alchemical way to heighten the inner sense of the reader. The style and essence are such to opens the mind and heart to reveal life as more than just some series of random experiences. Life is a way **WE** explore and discover 'One Self' in a most profound and fundamental way.

Born and raised on the outskirts of Springfield, Anywhere USA,
she is Here/Now a citizen
of a New World.
